Frozen to Death—Suicide by Drowning—Murder in Webster—Shooting in Todd—Confidence Man in Caldwell—Eph Gant Acquitted—Wreck on the O. V.—Other News Items.

Frozen Still.

John Bradley, a prominent farmer of near South Carrollton, was found frozen stiff in the snow last Wednesday night by his daughter. He left Central City late and started to walk home in the face of the raging snow storm, and was considerably under the influence of liquor. His family became alarmed for him and his daughter started to look for him. A few hundred yards from the house he stumbled across his dead body in the snow. He had fallen several hours before and was covered with the snow. In "Taste Sans's" Clutches.

William Johnson, charged with fraudulently obtaining from the post office in this city the mail master of another, had an examining trial before U. S. Commissioner J. B. McKenzie and was held in \$150 bond for his appearance before the Federal grand jury which meets in Owensboro. He furnished the bond and was released from custody. Messrs. Dabney and Candler, represented the Postoffice Department, and defendant was represented by Messrs. C. H. Bish and John W. McPherson.

A Black Citizen.

One day last week a man named Johnson appeared in town and announced that he was an agent of the Courier Journal, and was out taking subscriptions at \$5 per year for the daily. He victimized a number of people and when he went to leave for got all about paying his hotel bill. He was a man of good appearance, a fine talker and altogether one who would have little trouble in making his way in the territory in which the Courier Journal circulates.

A Bath House Blaze.

Early Friday morning a fire was discovered in the bath house of Mr. T. L. Metcalfe's establishment, but the blaze was extinguished before much damage was done. The ceiling of one of the rooms was destroyed, as some clothing belonging to the colored bath attendant. The fire is supposed to have originated in some old clothes lying near the fire place. Mr. Metcalfe's loss is small.

Eph Gant Acquited.

Eph Gant, col., who was arrested near Crofton one day last week, on a warrant charging him with committing a rape upon the person of a colored girl named Laflawn, was discharged from custody Saturday. The examining trial took place at Crofton, before Esq. Myers, County Attorney Anderson conducted the prosecution and Mr. Harry Ferguson represented Gant.

The Water Route.

Ellen Bailey, a colored woman living at Sadiesville, three miles south of Guthrie, drowned herself in a pond Tuesday. She had been acting "strangely" for several days previous to the harsh step but no particular attention was paid to her queer actions and not until her dead body was discovered was the matter looked at in a serious light.

Wreck on the O. V.

Wednesday afternoon the local freight on the O. V. left the track between Dekoven and Sturgis and took to the woods. Seven freight cars were derailed and two turned over. No body was hurt. The derailed cars were not badly damaged and the Company's loss will, therefore, be very slight.

Webster County Murder.

The dead body of Liver Sime, a Webster county farmer, was found near Providence Saturday morning. An examination revealed the fact that he had been shot four times. The affair is shrouded in mystery, but the officers are said to be following a clue that may lead to the perpetrator of the horrid deed.

A Queen Suit.

S. A. Browning, of Hopkins county, has sued J. B. Lovelace, Marshal of White Plains, for \$2,500 damages, for alleged illegal arrest and assault. Lovelace is only an office employee by the village to keep order.

Elopement to Clarksville.

Mr. Clarence Nixon and Miss Jessie Savells, both of this city, eloped to Clarksville Thursday and were married by a local magistrate. Miss Savells was a pupil in the Ninth grade at the Public school and is only 16 years of age. The young couple made the trip in a hack, accompanied by Mr. Harvey Young and Miss Katie Young.

They reached Clarksville about 1:30 p.m. and in a few minutes the knot had been tied and they were on their way back home. They arrived here the same evening and are now at the home of the groom's parents. Their object in running away was to escape any possible objections and at the same time add a tinge of romance to the wedding. Mr. Nixon called on his new father-in-law Sunday and was told that they might have married at home if they had made their wives known. As it is, all have been forewarned and the young couple are quietly enjoying their honeymoon. The rumor that Mr. Savells tried to have the Clarksville police stop the marriage was entirely unfounded!

Mr. Nixon is an industrious and worthy young carriage maker, who is employed by the Blumenthal Carriage Co. His wife is a daughter of Mr. E. H. Savells, and is quite a pretty young lady.

Shooting at Sharrocks Grove.

A shooting affray took place at Sharon Grove, Todd County, a few days ago, between Emmet Shewmell and Prince Lyon. Shewmell struck Lyon in the face with his fist, who ran upon Lyon drew his pistol and fired. The ball struck Shewmell's pocket knife and no harm was done. At the examining trial Shewmell was cleared. Lyon was held under \$250 bond for his appearance at circuit court, and will have to answer later.

A Narrow Escape.

A little four year-old daughter of Mr. A. J. Southall caught her clothing on fire from an open grate Saturday, and the house girl was near by and promptly extinguished the flames before any harm was done.

About JOSEPH WHEELOCK, JR.

He Made His First Appearance on the Stage

and about the only ones of this class

are generally those who have no home, no teams, and no property to haul, and of course they have no interest at stake and only go on the road to escape a fine, and to kill time; that's all. I don't blame them.

I have never made a negro go on my road to work and lose his time.

I have looked into the county records, and I find, in going back ten years, up to 1890, that the appropriations for roads, bridging, working teams, plows, wagons, &c., ranged from nine thousand to twelve thousand dollars per annum, and for 1890 fifteen thousand. I understand that the coming year will take seventeen thousand dollars. Great Caesar! Like the present roll—when will it stop?

Shall it go on forever. Corporate companies have saved five of the most important roads from being an expense to the county, and they are the main roads, along which two thirds of the country produce is raised.

The road taxation or appropriations have increased in a large ratio, when they should have decreased, and the tax payers alone pay these taxes now to the company's gate fees, and to the sheriff's taxes for fixing over mud roads.

What this county pays out annually for what all admit to be of

no purpose, will pay the interest on the bonds to pile all the most important roads in the county and still be less than they pay now.

I understand that the new Constitution allows any County Court to issue bonds to the amount of thirty thousand dollars per annum to build or acquire turnpike roads.

We have 90 miles of good turnpike already made and operated, which can be bought up, and gates thrown open; 50 miles more making 75 to 80 miles in all, would cost say \$175,000.

On this we would have to pay 3% bonds at the rate of \$30,000; expended per year, say \$1,600 interest; or when the 80 miles are finished and paid for, we would be paying interest, in all say \$10,500, much less than they are now paying out on our mud roads. Just think of it; we could save enough each year as a sinking fund to soon pay off the indebtedness.

My experience is that 1% & 2% will keep good turnpikes in good repair.

It will be best for the county to build and own their roads, unless they have and keep up a thorough system of pairs done under contract and according to specification. One good practical superintendent at a living salary can give his whole time and attention to it and keep them up at a small cost.

We have the most lasting rock I ever saw. If taken in time they would never be out of order. Again, if not built by our county criminals party, they can easily be kept in repair by them. The county has to feed them and they can work out fines as they do for the city.

It has been demonstrated that two guards can with and work from 15 to 20 mos., and their pay need be the only cost.

I see that the counties of Warren, Shelby and Fayette, have already commenced under the new laws, buying out the private companies and opening the gates.

Shelby county has 150 miles, Fayette 200 miles, and most of these roads cost before the war, from \$3,000 to \$10,000 per mile. The fiscal courts of their counties are buying them and issuing the bonds right.

Clarksville is agitating the question of free pikes and free bridges, and will have them. They held the advantage over your city for years because they had pikes and we had none. Now, if Clarissville makes them free she will have the advantage again.

I earnestly ask our county court at its next session to look into the matter. Look at it in a purely business way and as a matter of economy. A great saving of money and continual worry; as due your county and the interest of your town.

Look into the law on the subject and see what the other counties are doing.

The people of the county are unanimously for it. Have canvassed the county myself for sometime and have never found a thinking man who was not for it, and as a matter of economy the city is solidly for it; and really would never have advocated and helped the Turnpike companies if they had not believed it was the only way to get eventually free roads.

There is no doubt that toll gates and bridges are barriers to the trade of any town, and really help to build up some competing place no having them.

FREE TURNPIKE ROADS

A SENSIBLE ARGUMENT BY A GOOD WRITER.

Reasons Why Our Turnpikes Should be Made Free and Some Statistics on the Subject of Roads.

EDITOR KENTUCKIAN:

I am, and have been for years an advocate of good roads—for macadamized roads as the best, and cheapest.

I was some years ago with that

diversity of opinions, various sectional animosities and cold-weather, that there was little hope of getting them

by county enterprise and that individual corporations had to make them.

Under individual proprietorship some

50 miles of good pikes have been built

to the county, and gates put up. Both are excellent.

When we advocated a general tax to build these roads, and to let the burden fall on all alike, the multiplied numbers of ethnic crackers came to the front. Their song was—"Let those who want roads pay for them."

An expression very much used with this class was: "We are opposed to a tax, but let every man do as he will; put his hand in his pocket and give so much." Well, we have built some pikes, and I have never heard of one of these objectors giving one cent, or taking one dollar of stock.

Now that the gates are up these

same gentry are calling the turnpikes vampires, and go around the gates when they can.

Now, Mr. Editor, I am going to join

the general public and cry, "Free roads," and I believe that for once I am on the popular side.

Everyone admits that the old State and county laws are obsolete, useless and inoperative,

a dead letter, no one works and

no one cares.

In Kentucky those who do work,

and about the only ones of this class

are generally those who have

no home, no teams, and no property

to haul, and of course they have

no interest at stake and only go on

the road to escape a fine, and to kill

time; that's all. I don't blame them.

I have never made a negro go on

my road to work and lose his time.

debtedness.

A Temple of Art.

Not for a Day but for all Time.

Memories of the White City are fading—all but one. Majestic in its beauty the Palace of Art survives to remind mankind of wonders departed. Triumphant over fire and tempest the stately structure stands beside the lake dedicated forever to the service of the people. As a gallery of painting and sculpture it surprised and delighted the nations. As the Field's Columbian Museum it will entertain and instruct multitudes in the ages to come.

A World's Fair in miniature is the museum to-day. While it lasts the public will have before them a vivid reminder of the greater exposition of 1893. It will bring back the vast panorama of splendid exhibits including the fine showing made by

Dr. Price's Cream Baking Powder

The analysis of Dr. Price's by government experts demonstrated its immeasurable superiority in leavening strength, purity and general excellence and gained for it the

Highest Award at the Fair.

AN EMBARRASSED BURGLAR.

The Sleeping Man Was Suffering from Nightmares and Night Walks Sometimes. "Once I sold the retired burglar to a writer for the New York Star. I looked from the upper hall of a house that I was in, and literally could not get into it at all. It seemed as if they must have had the windows closed, the blinds shut and the shades all down. It was blacker'n a cave. I turned my light on around on the floor to get the lay of the place, but I could see nothing. I was not to stumble over anything. I crept on the bed, I saw a chair, and I crawled down from it in a pair of trousers legs. Then, of course, I knew there was a man in the bed, and that it was his clothes that were started up on the chair. I went to sleep again and started. I knew the way now, and slept very quickly; but when I met about half-way across the room the man in the bed began to holler. How he could see me I couldn't understand. I couldn't see him at all. I got up and went and waited. He didn't holler while I waited, though he was trying to holler, but he was so scared that I was surprised to hear him holler at all; it sounded as though it was all he could do to catch his breath. I crawled out of the bed, sir, in about half a minute he stopped hollering altogether and for a minute or two did not breathe. Then I was scared; but in about a minute more he began to snore again. See? He was scared at first, what he was scared at was a nightmare. He didn't know I was there at all. But it was a mighty uncomfortable position to be in all the same, because, of course, he was just as likely to wake up some body else. I thought I would wait until he had been wide awake before he might have waked himself up, unless far's that concerned. But he didn't, nor anybody else, apparently, and when he'd got to snoring again and everything seemed quiet, why I just went ahead and covered his trousers."

HAD TO WAIT FOR THREE WIVES.

Sheridan's Marriage Inconveniences the American Minister.

The slush of Paris, who is now in his sixty-third year, and who is the happy parent of eleven children, concluded recently a marriage with his son, residing at his magnificent residence at Elber, which is some distance from Teheran, says the Paris Herald. His majesty, in order to spare himself the trouble of marrying again as soon as possible, decided to take to wife his son's widow, a widow of twenty years.

The matrimonial projects of the shah caused considerable inconvenience to the recently appointed Austrian minister, who desired to present his credentials to Persia's ruler. He left for Elber to do so, but to his great disgust found that his son's widow, now occupied with his son's descendants, the court officials were too busy to look after the Austrian envoy, and he was left out in the cold till the shah was safely married.

DEPLORED HIS OWN WEAKNESS.

Uncle Josiah's Habit of Exaggeration Too Deeply Rooted for Eradication. Uncle Josiah, the old gentleman, Indigo, a well-known old gentleman, had, in early boyhood, acquired the habit of gross exaggeration, says the Indianapolis Sentinel. The habit had grown upon him so that he believed that everything he said was true, no matter how great the exaggeration. After he had reached the ripe old age of three score and ten some of the deacons in the church thought his peculiarity was too much like lying to pass unnoticed, and it was decided, after a

great deal of consideration, that the old gentleman must be excommunicated. One evening, while he was seated in front of his door telling a small circle of neighbors about the way pioneers had to live in the prairie, and the dangers of the trail, he said, "I'm all alone in this world, and the chances are that I'll die here." The neighbors were shocked at this grip. "God help us," said one. I tried hard to comfort them, but they were in hysterics. They all began to draw tears down their faces. I sat upon the stone steps, and when I had time I would say, "I am not afraid to die, but that time I'll die for the Lord." The poor old man seemed to have let me in. Perhaps the old graybeard, which I often saw and loved, had caused the change. But I should not pass him in return for all of life, and I took this, my last, opportunity to tell them that I was all alone, still down to a dog that couldn't understand, put into these fallen, old, dead men and old, dead women to produce an even worse atmosphere. The degree of my exasperation and despair is difficult to express, but I can assure you that I am not afraid to die for the Lord.

The old man with which this man spoke would have a right to this present life, then, should the occasion demand it. He is man of intelligence, and is strongly averse to wrongdoing in either word or deed, but neither fail him into his friends, nor into his mangled path, and continue those he has left him with, as above stated, and hide himself forever.

RUSIAN MENICANTS.

Swarms of vagabonds constitute the larger class of the Empire.

On an average about two hundred and fifty mendicants of both sexes are every week arrested in the streets of St. Petersburg, while in Moscow, Odessa, Warsaw, and other principal centers the numbers are still higher, police are proportionately large. One reason for the existence of so numerous a swarm of mendicants is the granting of passports to all persons who have suffered terms of imprisonment, no matter how short those periods may have been or for what trivial offenses they may have been committed.

HIS TOMB A WELL.

Stogler. *Never Adopted by a Reformed Gambler in Bay Reform.*

As undesirable as it may seem, it is nevertheless a fact, says a Mount Clemens correspondent of the Tribune Journal, that there is a man now living in this city who has dug his own grave in the side of an old deserted well, several feet down from the top, and placed a rifely constructed coffin therein in such a manner as to baffle detection. And this is a man who has lived in this city for many years past, in the side of an old deserted well, several feet down from the top, and placed a rifely constructed coffin therein in such a manner as to baffle detection.

In these days of shifting domestic associations it is worthy of note that a woman died lately in Allentown, Pa., and lived as a servant in one family for a period of forty-seven years.

The poor fanatical missionary pleaded for three months' punishment of a girl of 12 who had spoken ill of God to her motherless family. But the girl was of wit more than hand, however, and replied:

"I am the King of Heaven, I am the King of Hell, I am the King of the Devil, I am the King of the Devil's Kingdom, I am the King of the Devil's Kingdom, I am the King of the Devil's Kingdom, I am the King of the Devil's Kingdom."

The Harrodsburg Democrat is the only Democratic country paper in Kentucky that seems to be wrong on the silver question.

The Herald Independent has been leased to Mr. Jno. B. Joplin, of Santa Ana, Cal., who will take charge of the paper in a few weeks.

It seems to be almost a foregone conclusion that both Stone and Hager will enter the gubernatorial race before the end of the present month.

May Yoh, the American actress, was married Lord Francis Hope, an English nobleman. She is still filling her theatrical engagements in London.

The Courier-Journal says Col. J. Stoddard Johnson has determined to enter the race for Secretary of State against Capt. Jno. W. Headley and Maj. H. S. Hale.

Bryan, of Nebraska, followed the example of Silvey, of Pennsylvania, and ousted President Cleveland last Friday. Two roasts in one week by Congressmen of his own party, is becoming quite complimentary to your uncle Grover.

The candidates for State offices are now beginning to stir around. What is needed is about half a dozen good candidates for every office, in order that the people may not have to put up with Hobson's choice in making nominations.

The Covington Commonwealth asks what paper in Kentucky outside of Louisville is in favor of a single gold standard? The Harrodsburg Democrat speaks of silver as a "debased currency." But maybe Editor Spotswood can explain what he means.

Sure enough the West Virginia Republicans have gone and done it. They have chosen the notorious Steve Elkins as senator to J. M. Camden. He had no formidable opposition in the caucus. Elkins is fifty-one years old and was in the Harrison cabinet.

A deal was made at Bowling Green last Thursday transferring the Park City Times' plant from Postmaster John B. Gaines to a stock company composed of Mayor Mallory, W. B. Gaines, S. T. Breeding and C. M. Lewis. The policy and make up of the paper will remain as heretofore.

Judge Field, Jackson and Richie have raised Cain since the latter came into office. That is to say they have declared illegal the election of Cliff Roberts as Indexer on the 4th, and have proceeded to elect Paul Cain to the same office. Cain will have to stand a lawsuit before he is able to get the office.

The Democrats of the Tennessee legislature will purge the election returns of fraudulent votes before they declare anybody elected governor. This means that H. Clay Evans will not be governor of Tennessee this time. It will be shown that thousands of his votes were fraudulent and cast in open defiance of the poll tax law.

A Republican member of the Tennessee legislature in arguing against an investigation of the gubernatorial election, quoted from the Courier-Journal and Atlanta Constitution to back up his position. If this high authority caused any Democrat to waver, their hesitation ceased when Senator Cooper read from the record the names of nine Democrats elected to the 51st Congress, who were turned out by the votes of Evans and his supporters.

Thos. H. Carter and Lee Mantle have been chosen as Senators by the Republican legislature of Montana. Mantle was voted for two years ago, but was not permitted to take his seat.

Hon. Jas. H. Budd was inaugurated as governor of California Friday, having been declared elected by 1,208 majority. He is a Buffet that the Democrats should propagate for future use.

Ward McAllister has been de-throned and Mrs. Ogden Mills is now the acknowledged leader of New York's aristocracy. In order to emphasize this, she has gone so far as to snub McAllister herself.

A Republican named Upton was made chief in one of the treasury departments last Friday. Is it possible that our own Carlisle is becoming tinted with mugwumpery as well as goldbuggery? It was a place too not under snivel service regulations.

The race for the Democratic nomination for railroad commissioner in this district seems to be made up, with Frank B. Richardson, of Christian; J. Fletcher Dempsey, of Hopkins, and Dr. Robt. L. Moore, of Crittenden, as the only entries. There are 39 counties in the district.

Ex-Gov. "Briddlebits" Waite, of Colorado, evidently thinks he can be funny when he tries. He is preparing to take the platform with a political lecture on "Who's Our Fat Friend," in which he plays his respects to President Cleveland. He will lecture in New York Jan. 22, and in Washington a few days later.

N. R. Harper, the colored lawyer in Louisville, is a Republican candidate for the legislature. Christian county may also have a colored candidate. Some of the smartest Republicans in the county are colored men and as the Republicans are to have things pretty much their own way this time, there will never be a better opportunity to reward the colored brother than by nominating some representative Republican of the county for this place.

M. C. Dulin and Maggie Berry were licensed to wed yesterday.

A new system of fraud has made its appearance upon the larger denominations of our gold coins. New and unwarped pieces are selected; that they may circulate with less suspicion, and the circumference and weight slightly reduced, to the extent of say seventy-five cents to the \$1, by turning the corners inwards, the edge of the piece and remilling it.

The absence of soles this fraud can only be detected by comparison with a piece that one is sure has not been tampered with. Several of such coins have been stopped at the Boston treasury. They were chiefly \$20 gold pieces.

"It is with pleasure that I give you the details
of our little May's sickness and her return to
health by use of Hood's Sarsaparilla. She
was ill for over a year, and during that time
she was feverish and had a bad cough.
Following this a sore came on her right side be-
tween the two lower ribs. In a short time an-
other broke on the left side. She would take
water and eat nothing, and when she did she
would vomit. We could see no cause for this
but that she was better. We gave her Hood's Sar-
saparilla, and she soon got well again.

The fact that the English never send seeds to this country, and pay £100 for a small pincushion of the yellow-flowered variety of cypripedium is shown, that the trade still believes that the market for extrordinarily rare and peculiar orchids is likely to be maintained.

A patriarchal lime tree, known as the "Lime Tree of Birkenhead," has fallen as Birkenhead. It was eight feet six inches high and its girth was almost ten feet. The tree was 100 feet high and 100 inches in diameter.

The moist and cool climate of Birkenhead allows flowers to bloom earlier.

As the heat comes on, the blossoms fall.

As the heat
